

Yunseo Park

Curriculum Vitae

Daejeon, Korea — yunseopark@kaist.ac.kr — LinkedIn — GitHub — Google Scholar

EDUCATION & RESEARCH EXPERIENCE

B.S. in Computer Science and Electronic Engineering(Double Major)

Feb 2022-Present

KAIST, South Korea

Research Intern at VL Lab

Jan 2026-Present

KAIST, South Korea

School of Computing

Research Topics: Generative Modeling, Diffusion Models and Flow-based Models

Research Intern at CyPhy Lab

July 2025-Dec 2025

KAIST, South Korea

School of Computing

Research Topics: Physical AI-based Sensing Augmentation

PUBLICATIONS

1. *Training-Free Refinement of Flow Matching with Divergence-based Sampling*
Yeonwoo Cha, Jaehoon Yoo, Semin Kim, **Yunseo Park**, Jinhyeon Kwon, Seunghoon Hong
arXiv, 2026 (under review)
2. *Hide-and-Sweep: Detecting Concealed Cameras via LED Illumination Sweeps*
Jonghyuk Yun, Jaeyoung Moon, **Yunseo Park**, Sean Rui Xiang Tan, Byunghyun Kim,
Rajesh Krishna Balan, Jun Han
MobiSys, 2026

HONORS & AWARDS

KAIST Presidential Fellowship

2022-Present

KAIST, South Korea

Global Leadership Center

National Science and Engineering Undergraduate Scholarship

2022-2025

Korea Student Aid Foundation, South Korea

Hanseong Nobel Young Talent Scholarship

2021

Hanseong Sonjaehan Scholarship Foundation, South Korea

TEACHING EXPERIENCE

TEACHING ASSISTANT

CS.10001: Introduction to Programming

Feb 2025-June 2025

KAIST, South Korea

School of Computing

STUDENT INSTRUCTOR

HSS.10074: Humanity/Leadership III

Feb 2023-June 2023

KAIST, South Korea
School of Digital Humanities and Computational Social Sciences

SKILLS

Programming Language Python, C, Kotlin, TypeScript

Language Korean(Native), English(Fluent), German(Beginner)

EXTRA CURRICULAR ACTIVITIES

Immersion Camp: Intensive Programming and Startup

June 2024- July 2024

KAIST, South Korea

School of Computing

Collection of Project Pages (Korean, Authored Collaboratively by Project Teams)

Developed mobile application, web, and progressive web application

Oversea Exchange at Technical University of Berlin

Sep 2024-March 2025

Berlin, Germany

Completed 24ECTS: *Julia for Machine Learning* (sehr gut), *Compiler Design* (sehr gut), *German A1* (sehr gut), *German A2* (gut)

Developed *Parallel Plots* as a group project for *Julia for Machine Learning* course

Europa Macht Schule Student Volunteer

Nov 2024-Jan 2025

Berlin, Germany

Program Coordinated by DAAD(German Academic Exchange Service)

Designed and delivered a total 135-minute class series at Friedrich-List-Schule Berlin on Korean culture and Hangeul, the Korean writing system

Summer Session at University of California Berkeley

June 2022-Aug 2022

Berkeley, California

Completed 8 Units: *COMPSCI61A: The Structure and Interpretation of Computer Programs*(A+), *MATH10A: Methods of Mathematics*(A+)
